## EXPERIENCE

March 2024-Current

### **Full-Stack Developer Intern, *Brototype***

- Developed and maintained an e-commerce website, implementing features to enhance user experience and streamline the purchase process.
- Collaborated with a cross-functional team to integrate front-end and back-end components using Python, Django, JavaScript, React, and SQL.
- Optimized website performance, reducing load times and improving scalability to handle increased user traffic.
- Utilized GitHub for version control and Figma for UI/UX design adjustments based on feedback and usability testing

## SKILLS

Python	Django	SQL	BootStrap	HTML
CSS	Figma	GitHub	Data Structure	MongoDB
JavaScript	React	Communication	Problem-solving	Management
ORM				

## PROJECTS

### **1. SARAM - E-Commerce Website**

#### **Visit Project | [GitHub](#)**

- Developed *SARAM*, an online fashion store specifically designed for ladies and kids.
- Built key features including product catalog, shopping cart, user authentication, and secure payment integration using Python, Django, JavaScript, and React.
- Optimized backend performance with SQL and MongoDB, improving load times and handling higher traffic volumes.
- Enhanced the user interface using Bootstrap, HTML, and CSS, and collaborated on design improvements in Figma for a visually appealing and responsive layout.

## EDUCATION

- **BSC Chemistry**
